

# SHARE YOUR STORY

## AUGUST 19 & 20, 2016

Community Service Programs, Project PATH wants to film your story in a video public service announcement (PSA) as part of the “We Can Overcome” public health campaign. Our goal is to raise awareness of domestic violence as a health issue, reduce stigma surrounding domestic violence, and to promote the resources available in Orange County. The video PSA will be on social media and Youtube. All participants can be kept anonymous and will receive a gift card for their time.
